ACTION TAKEN REPORT ON STAKEHOLDERS FEEDBACK ON THE ACADEMIC PERFORMANCE AND AMBIENCE OF THE INSTITUTION - ACADEMIC YEAR: 2021 - 22.

STAKE - HOLDER	ACTION REQUIRED	ACTION PROPOSED	ACTION TAKEN	EVIDENCE
Students	Need more Industry Professionals to learn about the technical events to bridge the knowledge gap.	The recent HODs meeting resulted in a commitment to bolstering departmental offerings, including a significant increase in both technical events and specialized add-on courses.	Departments have proactively identified courses and technical experts within their fields, leading to the development of valuable courses focused on cutting-edge technologies.	Departments are proactively enriching student experiences by offering courses featuring industry experts, accessible through both online and offline formats.
Faculty	Collaborative research can accelerate progress in specific field by leveraging diverse expertise, resources, and data sharing across institutions and industries	The recent HoDs and Deans meeting saw a proposal to leverage MOUs with external partners, including academic institutions and industry leaders, to drive collaborative research initiatives.	MOUs signed with key industries and institutions across departments, including Centre of Excellence and Placement, to propel research efforts.	MOUs signed this year across departments, including Centre of Excellence and Placement, fostering industry-academia collaboration.
Alumni	Targeted training programs, like hands-on workshops with industry experts, are crucial to equip students with the technical expertise demanded by modern workplaces.	Following a productive meeting with the Training and Placement department, a recommendation was made to organize various programs focused.	Planned to conduct the program to actively engage the industry experts to deliver training sessions, enriching the experience of final and third-year students.	Equipped with new skills and certifications, students are prepared to launch successful careers
Employer	Students need more opportunities to apply their technical knowledge through projects and internships to strengthen their understanding	Following concerns about student employability, the Placement department received a recommendation to prioritize initiatives that enhance students' technical skills..	Responding to the need for enhanced technical skills, we have launched new training programs in web development, hardware/software troubleshooting,	Enrolment in the training programs has surged, demonstrating their value to students. Hands-on experience in web development, hardware/software troubleshooting
